

Welcome to the latest version of the AGGV's Online Collection. The objects contained in this database represent the Art Gallery of Greater Victoria's entire accessioned collection of over 20,000 works of art.

The AGGV has been collecting works for over 70 years and we receive over 500 objects per year. Our online collection is a work in progress as we are continually updating the information to ensure the accuracy of the information cited on this website.

However, as our research is ongoing, our online database may not be current, complete or appropriate. We are committed to continuing to improve this information and will revise and update knowledge about these objects as it becomes available.

If you are a rights holder with a concern that you have found material on this website for which you have not granted permission or if you encounter a work of art that is problematic with regard to its description:
